

The impact of care management

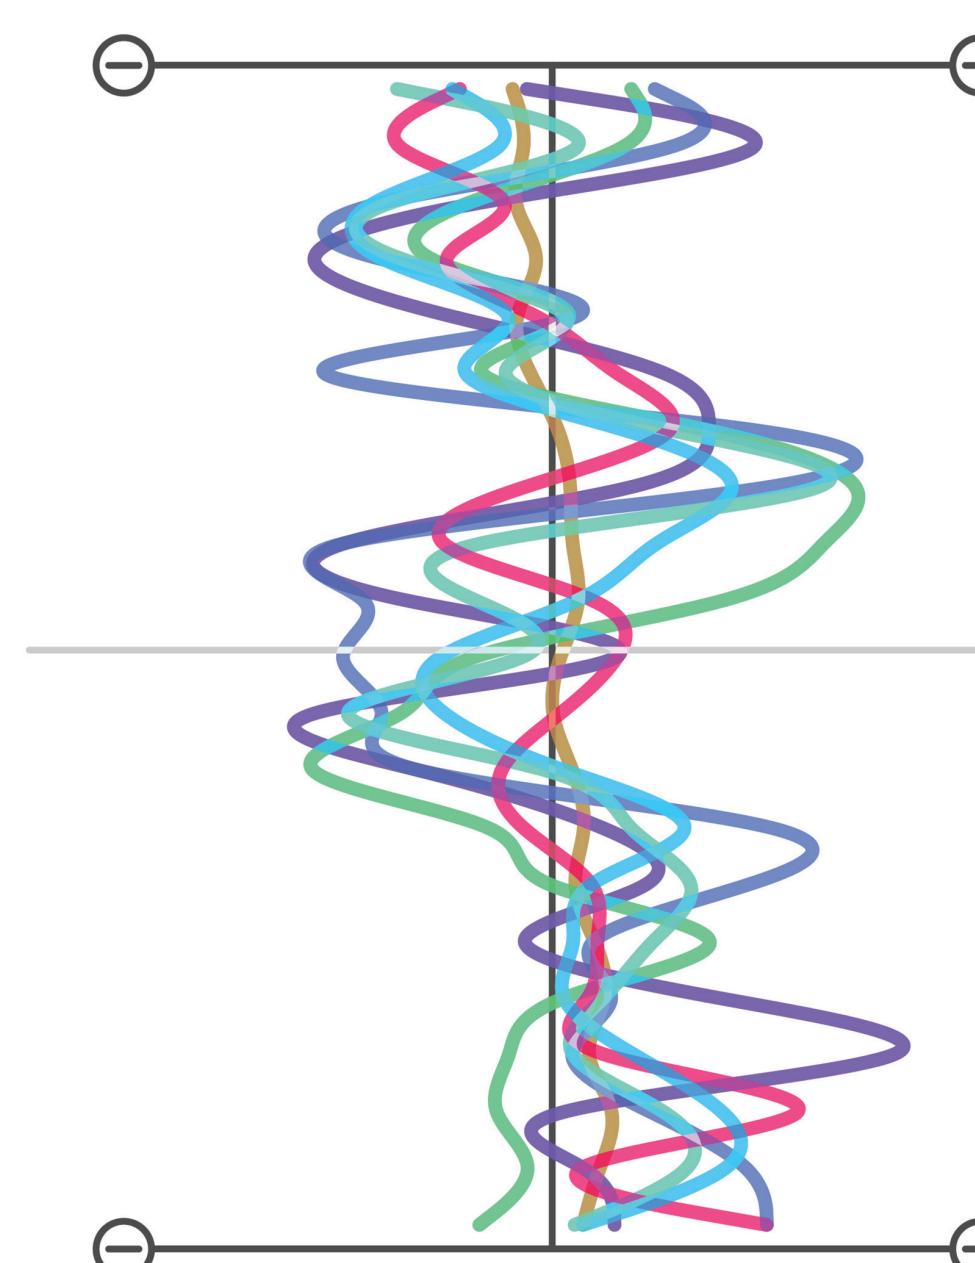

Risk stratification and hands-on care

PATIENT ACTIVITY BEFORE & AFTER ENROLLMENT

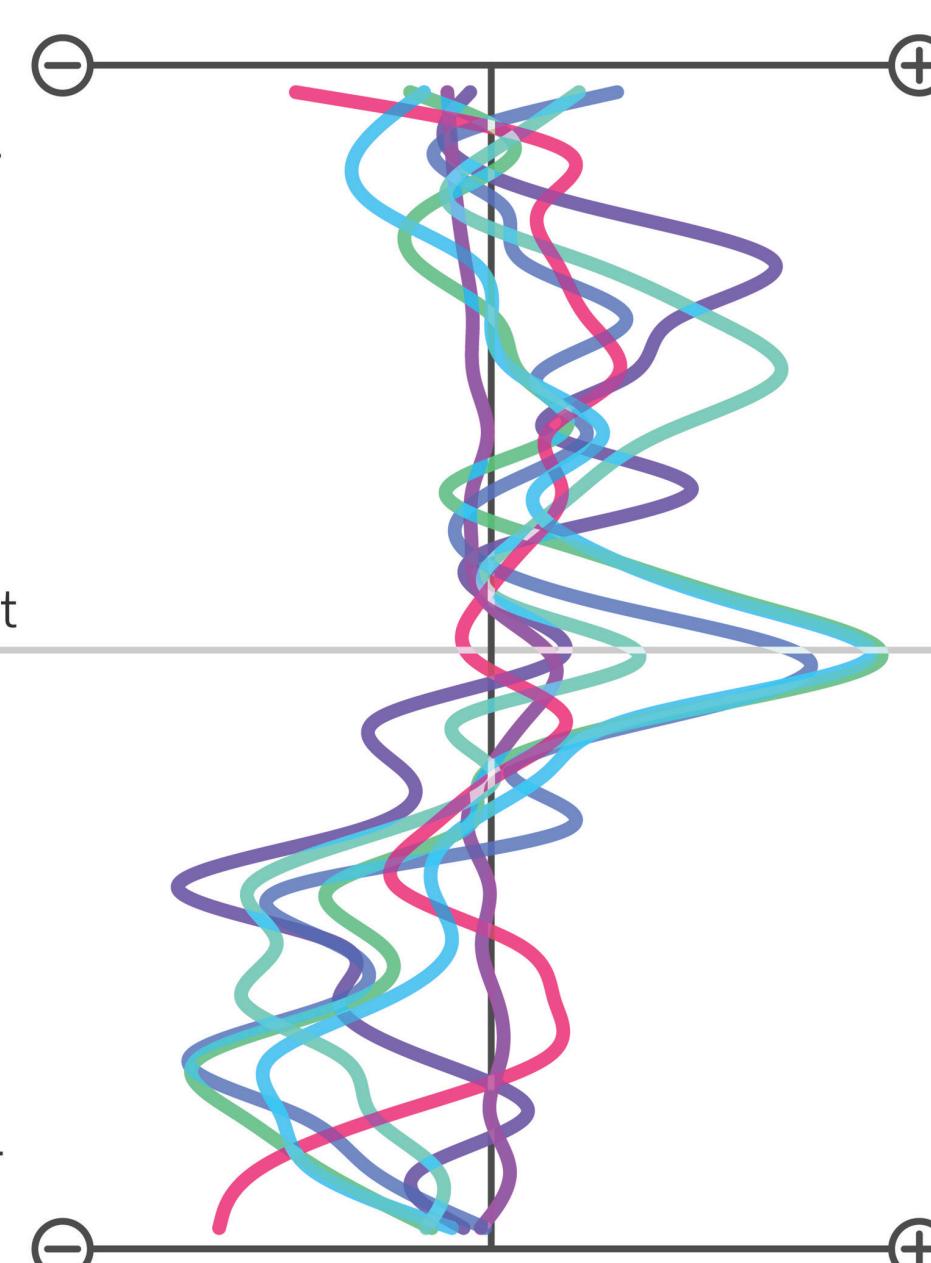

The Control Group

2,500 patients with the same clinical and demographic markers as our patients under management.

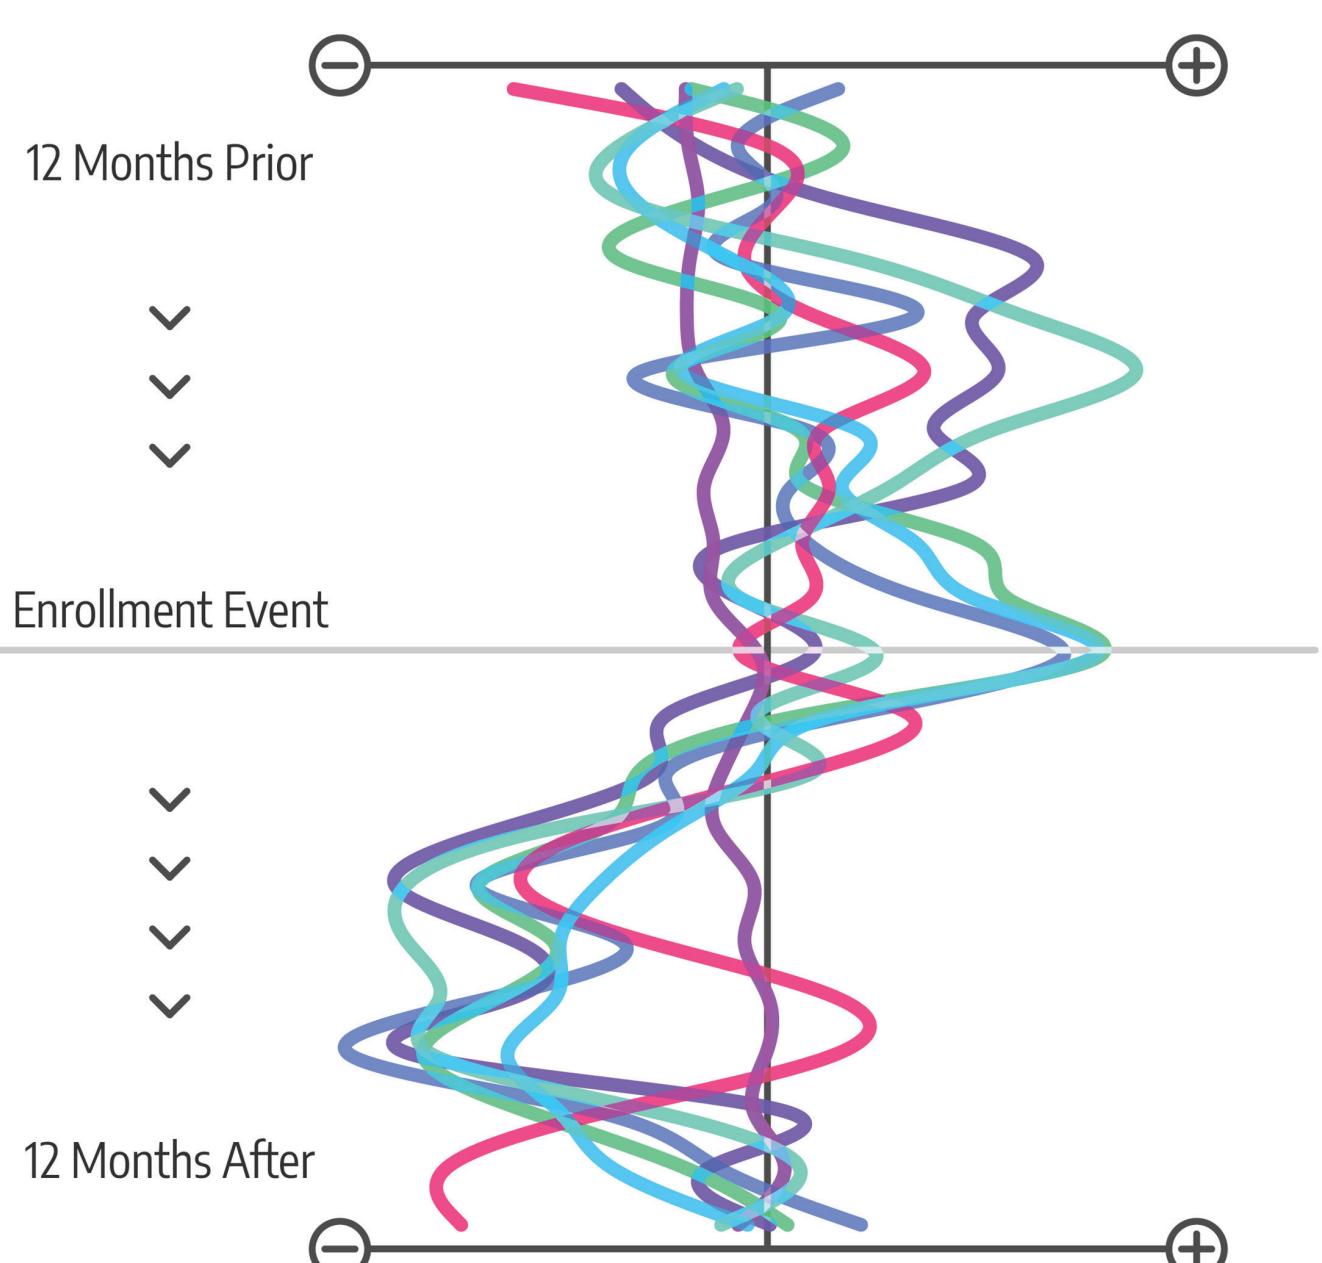

Managed Patients

2,500 patients that took part in a care management program for a significant period of time.

The Impactables

A subset of 1,000 patients under care management that Arcadia flagged as highly impactable.
